LIFE AS PILGRIMAGE

A weekend retreat for men and women with Noel Giblett

This retreat is open to anyone who wants to deepen their spiritual journey and take time out to reflect on questions of purpose, momentum or direction. We will draw from a variety of wisdom traditions. However, this retreat assumes an openness to an inclusive contemplative Christian framework grounded in notions of a loving creator, a guiding spirit, and the person of Jesus who teaches and exemplifies the fully human-divine life. It will be a gentle and reflective weekend, incorporating the wisdom of literature, music and art, as well as that of the group.

- **Acknowledging the Past** – naming the key influences, conscious and unconscious, welcome and otherwise, that have formed your foundation, acknowledging key gifts and challenges thus far.
- **Engaging with the Present** – engaging with who you are, where you are, and who else is part of the journey; and identifying the key themes that recur for us, individually and collectively.
- **Stepping into the Future** – discerning your direction, setting your intention, seeking the necessary help and resources, committing.
